Oak Collection™

A handcrafted step-by-step process.

- 1 It starts with the realistic wood grains of a Thermo-Tru door or composite door frame.
- 2 A base coat provides an even, consistent color across the surface.
- 3 A wiping stain enhances the base coat while adding dimension to reflect the natural beauty of wood.
- 4 A durable topcoat enhances the high-definition color while protecting against scratches and color fading.
- 5 A second application of the topcoat provides added durability and optimal sheen for a high-end look.

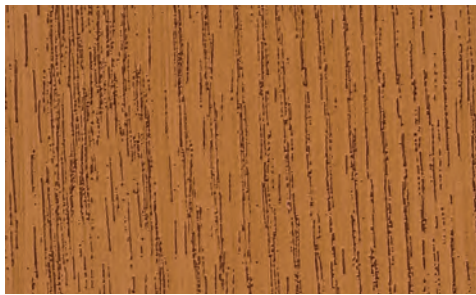

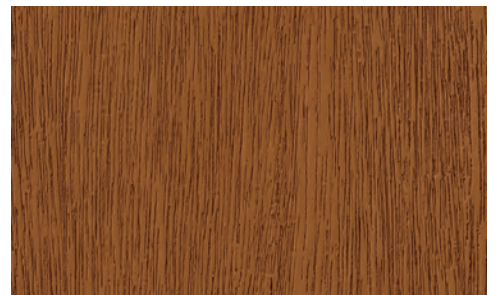

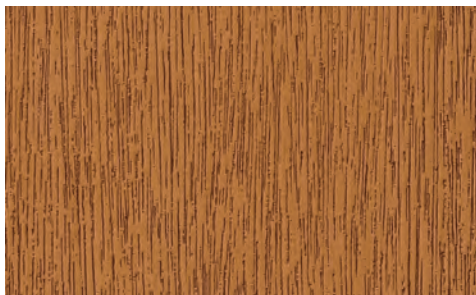

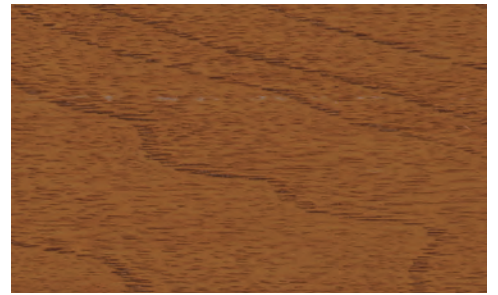

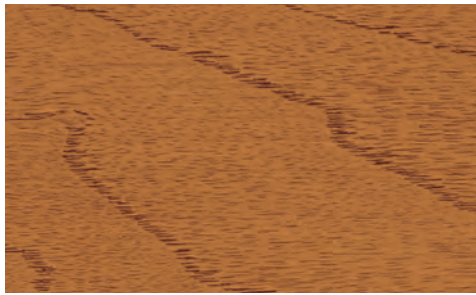

Note: See your Thermo-Tru seller for details on the PrismaGuard limited warranty and exclusions.
